# Directors' report

The directors present their report and the financial statements of Tipico Co. Ltd (the "Company") for the year ended 31 December 2024.

#### Principal activity

The Company operates a betting office accepting bets from its premises in Malta through its intermediaries, which are situated mainly in Germany, and through the internet. The Company's principal activity remains unchanged from prior year.

#### Performance review

In the year ended 31 December 2024, the Company held a sports betting licence renewed lastly on 7 November 2022 from the Malta Gaming Authority. The licence is valid until 6 November 2032. The Company also holds a German sports betting license granted initially on 9 October 2020 and renewed on 9 December 2022. The licence is valid until 31 December 2027. With these licenses, the Company operates the German sports betting offer through its German license and the Austrian online and retail offer through its Malta license. (Refer to 'Legal aspects surrounding gaming operations' within this same directors' report).

#### Key performance indicators

The Company reported a gross profit of €375,225,661 (2023: €391,674,923). The decrease of 4.2% (2023: increase of 10.1%) is primarily the result of an increase in direct costs. This increase was caused by a number of restructuring initiatives carried out in mid-2024 resulting in the Company to incur an intra-group 'brand and domain' licence fee as well as an intra-group 'sportsbook solution' fee. There was a growth of 23% (2023: increase of 7%) in the number of unique active customers placing bets through direct online channels whilst we have seen a decline of 4% (2023: no change) in the number of betting slips coming from retail channels.

After adjusting for administrative expenses and other gains, and other operating income, the Company has generated an operating profit of €1,211,773,364 (2023: €301,920,973). The operating profit increased by 301.4% over last year, mainly due a significant increase in operating income of €903.8m (2023: Nil) stemming from the restructuring initiatives, particularly the sale of the brand, the sale of a business including a sportsbook software solution as well as the sale of the Austrian customer base. All transactions were carried out with related parties. The profit before tax for the year amounted to €1,215,544,520 (2023: €305,302,306), after considering finance income and finance costs.

As at 31 December 2024, the Company's current liabilities exceeded current assets by €2,836,725 (2023: €97,472,276). In determining the ability of the Company to continue to operate as a going concern, the directors consider the support obtained from the immediate parent company allowing the Company to meet its obligations as and when they fall due. This support is valid for a minimum period of twelve months from when these financial statements were available for issuance.

Additionally, management's assessment of the recoverable amount of the Company's assets, particularly the impairment assessment of its intangibles, trade receivables and amounts due from payment service providers, took account of performance and payment patterns in 2024. No risk of future impairment was identified.

#### Financial risk management and exposures

For financial risks and uncertainties, refer to Note 2 'Financial risk management' that details the key risk factors including market risk (foreign exchange exchange risk and price risk), credit risk and liquidity risk and the Company's approach towards managing these risks.

From an operational risk standpoint, refer to the 'Legal aspects surrounding gaming operations' section within this same directors' report.

# Directors' report - continued

#### Legal aspects surrounding gaming operations

Tipico's (the "Group") main market is Germany, where Tipico currently generates the vast majority of its revenues from its retail and online sports betting and slots offers. Germany has completed a transition from an unregulated to a fully regulated market. Following sports betting licences having been issued and a so-called transitional regime for the operation of online slots having come in force in October 2020, a new State Treaty on the re-regulation of gambling in Germany (*Staatsvertrag zur Neuregulierung des Glücksspielwesens in Deutschland*, "GlüStV") entered into force on 1 July 2021 and codified the new regulation. The State Treaty 2021 also introduced a new central gambling authority, the Joint Gaming Authority of the Federal States (*Gemeinsame Glücksspielbehörde der Länder*, "GGL" or "Authority"), which has assumed the competence for licensing and supervision of gambling, inter alia, of sports betting and online slots, as of 1 January 2023.

After more than a decade of legal uncertainties regarding the regulation of gambling products, the first licenses for Germany-wide sports betting were granted in October 2020, including to Tipico. Thus, Tipico was among the first privately owned companies ever to be licensed in Germany and secured its license to offer sports betting via its retail outlets as well as via the internet to customers located in Germany. The 2020 sports betting licenses were valid until 31 December 2022 and replaced by newly issued licenses that were granted on 9 December 2022. The current sports betting licenses are valid until 31 December 2027.

Following introduction of a licensing regime for online slots with the GlüStV, Tipico was granted online slots licenses on 6 October 2022 and 31 January 2023, valid until 31 October 2027 and 28 February 2028, respectively.

Tipico has implemented the regulatory requirements and restrictions introduced by the new legislation to the extent that these are not subject to legal challenge before the administrative courts. This includes regulatory requirements for the slots offer that were implemented already prior to having been granted the German online slots license. It further includes the deposit limits and restrictions on the sports betting program that were implemented in the course of 2022 to comply with a defined request by the former authority and to fulfil the provisions of a general settlement that was reached in November 2022.

Restrictive interpretations of bonus and advertising rules may have some limitations going forward. We however expect the impact on Tipico's business to be comparably low due to the Group's strong market position in Germany and high level of visibility because of its retail presence.

Tipico reached an agreement with the former authority (i.e., the predecessor of GGL) to clarify the admissibility of certain betting types such as live-bets on half-time result and remaining play time via court proceedings and is entitled to offer those betting types for the duration of the proceedings. Since the proceedings, which are currently pending before the first instance, will go through several instances, it will likely take several years until clarification is reached. Certain other ancillary conditions of the sports betting and slots licenses have been challenged by Tipico and are subject to administrative proceedings. A potential negative outcome of those proceedings and, thus, further restriction of the permitted betting offer, may impact the attractiveness of Tipico's betting offer, but we would expect such negative impact to be compensated by increased enforcement against operators that do not adhere to the scope of the betting offer.

Following the issuance of the first sports betting licenses in October 2020, the federal states also commenced the licensing process for retail locations. Such shop permits are granted by local authorities in the respective federal states on the basis of secondary legislation, namely the Gambling Acts of the individual federal states implementing the State Treaty 2021 (*Landesausführungsgesetze*). Tipico has applied for the necessary permits for own premises and premises operated by its franchise partners and to date 922 licenses have been granted, whereas 44 shops still are in the licensing procedure. Due to restrictive retail legislation in certain states and since the beginning of the licensing process in 2021, Tipico – as expected – had to close certain premises because they were found unsuitable for receiving premises licenses, primarily due to not fulfilling the required minimum distance requirements to certain infrastructure (such as other betting shops, gambling venues or sensitive venues such as schools) or due to not receiving building permits.

# Directors' report - continued

#### Legal aspects surrounding gaming operations - continued

Overall, the business impact of such closures was marginal. Generally, the Group has been able to further expand its market leadership also in the retail sector.

In recent years, a steadily increasing number of players in Germany, supported by litigation funding companies, are initiating civil claims against Tipico and other operators. These players mainly argue that operators which had offered sports betting in Germany on the basis of EU licenses provided their services illegally as they were not in possession of a German license and/or breached material provisions of the applicable State Treaty. Thus, the players allege that online sports betting losses should be refunded. Tipico takes the view that these refund claims are without merit as it legitimately offered its services under EU law and in compliance with the applicable German regime. It is, therefore, vigorously defending these cases. One Maltese and three German courts, including the German Federal Supreme Court (*Bundesgerichtshof*) have initiated preliminary ruling proceedings relating to the compliance of the (previous) German legal framework applicable to the offering of online betting and casino, which are currently pending before the CJEU. As a result of the currently pending preliminary ruling proceedings, the German Federal Supreme Court and most Appellate courts (*Oberlandesgerichte*) are currently suspending national proceedings. In the preliminary ruling proceeding initiated by the Maltese Court (C-440/23, *European Lotto and Betting Ltd*), the CJEU had scheduled a hearing – the initial hearing took place on 9 April 2025 and the case is ongoing.

Despite Tipico's position on these cases, in 2024, Tipico has provided for final second instance rulings in Germany with a dispute value below EUR 20k to reflect Tipico's assessment of these risks (refer to Notes 3 and 13 within the financial statements for further information). This, in light of developments arising during 2024/2025, in particular the most recent referrals to the CJEU and the application of a three-year statute of limitation period, such that this represents management's best estimate of probable cash outflows related to these matters.

In light of the above, Tipico's management fully acknowledges that regulation has had and will continue to have an impact on near term growth, to an increasingly lesser extent though. The continued resilience of the Group to respond to such regulatory changes has enabled Tipico to record sustained strong performance and underlying growth. With the German market being fully regulated, 100% of the Group's revenue is deriving from regulated markets, which the directors consider will position the Group for future growth and success.

#### Ongoing examination

The Financial Intelligence Analysis Unit conducted a regular, non-event-related AML compliance examination in Q1 2025. A report has not yet been issued. Tipico Group has been and remains committed to improving its AML/CFT framework in line with its evolving operations and carries out self-commissioned external AML audits on a regular basis. The last such audit report was issued in Q1 2025 and states that the auditor "has not become aware of any facts that lead them to believe that Tipico Group has not set up an adequate concept of its AML Framework. In this regard, the auditor pointed out that significant improvements and enhancements were made to the AML framework compared to the last audit in 2022."

#### Results and dividends

The financial results are set out on page 11. The directors recommend the payment of a dividend of €1,087,076,327 (2023: €198,078,233).

#### Directors' report - continued

#### **Directors**

The directors of the Company who held office were:

Stefano Buse (appointed on 28 October 2024)
Christian Feiner (appointed on 1 July 2024)
Mate Bacic (appointed on 1 July 2024)
Joachim Baca (resigned on 30 June 2024)
Marlon van der Goes (resigned on 1 July 2024)
Karin Klein (resigned on 1 July 2024)
Stefan Eck (resigned on 1 July 2024)

The Company's Articles of Association do not require any directors to retire.

# Pledging of shares

During the year to 31 December 2021, one of the parent companies obtained external funding in the form of third-party borrowings which funds were subsequently pushed down to the immediate parent company. The Company's 100,000 issued share capital having a nominal value of €1 each owned by the immediate parent are being pledged to Unicredit Bank GmbH (formerly known as Unicredit Bank AG), acting as the agent on behalf of the third-party lenders, as collateral to cover the long-term borrowing of the parent company that obtained the external funding.

#### Statement of directors' responsibilities for the financial statements

The directors are required by the Maltese Companies Act (Cap. 386) to prepare financial statements that give a true and fair view of the state of affairs of the Company as at the end of each reporting period and of the profit or loss for that period. In preparing the financial statements, the directors are responsible for:

- ensuring that the financial statements have been drawn up in accordance with International Financial Reporting Standards as adopted by the EU;
- selecting and applying appropriate accounting policies;
- making accounting estimates that are reasonable in the circumstances;
- ensuring that the financial statements are prepared on the going concern basis unless it is inappropriate
  to presume that the Company will continue in business as a going concern.

The directors are also responsible for designing, implementing and maintaining internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and that comply with the Maltese Companies Act (Cap. 386). They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

# Independent auditor's report

To the Shareholder of Tipico Co. Ltd

# Report on the audit of the financial statements

# Our opinion

#### In our opinion:

- The financial statements give a true and fair view of the financial position of Tipico Co. Ltd (the "Company") as at 31 December 2024, and of the Company's financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards ('IFRSs') as adopted by the EU; and
- The financial statements have been prepared in accordance with the requirements of the Maltese Companies Act (Cap. 386).

#### What we have audited

Tipico Co. Ltd's financial statements, set out on pages 10 to 35, comprise:

- the statement of financial position as at 31 December 2024;
- the statement of comprehensive income for the year then ended;
- the statement of changes in equity for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, comprising material accounting policy information and other explanatory information.

# Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Independence

We are independent of the Company in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code) together with the ethical requirements of the Accountancy Profession (Code of Ethics for Warrant Holders) Directive issued in terms of the Accountancy Profession Act (Cap. 281) that are relevant to our audit of the financial statements in Malta. We have fulfilled our other ethical responsibilities in accordance with these Codes.

# Independent auditor's report - continued

To the Shareholder of Tipico Co. Ltd

# Other information

The directors are responsible for the other information. The other information comprises the *Directors'* report (but does not include the financial statements and our auditor's report thereon).

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon except as explicitly stated within the *Report on other legal* and regulatory requirements.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of the directors for the financial statements

The directors are responsible for the preparation of financial statements that give a true and fair view in accordance with IFRSs as adopted by the EU and the requirements of the Maltese Companies Act (Cap. 386), and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

# Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

# Independent auditor's report - continued

To the Shareholder of Tipico Co. Ltd

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not
  detecting a material misstatement resulting from fraud is higher than for one resulting from error,
  as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override
  of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Report on other legal and regulatory requirements

The Annual Report and Financial Statements 2024 contains other areas required by legislation or regulation on which we are required to report. The Directors are responsible for these other areas.

The table below sets out these areas presented within the Annual Report, our related responsibilities and reporting, in addition to our responsibilities and reporting reflected in the *Other information* section of our report. Except as outlined in the table, we have not provided an audit opinion or any form of assurance.

#### Notes to the financial statements

#### 1. Summary of material accounting policies

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### 1.1 Basis of preparation

#### (a) Going concern basis of accounting

The financial statements have been prepared on a going concern basis. As at 31 December 2024, the Company's current liabilities exceeded current assets by €2,836,725 (2023: €97,472,276). In determining the ability of the Company to continue to operate as a going concern, the directors consider the support obtained from the immediate parent company allowing the Company to meet its obligations as and when they fall due. This support is valid for a minimum period of twelve months from when these financial statements were available for issuance.

(b) Compliance with IFRS and with the Maltese Companies Act (Cap. 386)

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU and the requirements of the Maltese Companies Act (Cap. 386).

(c) Standards, interpretations, and amendments to published standards effective 1 January 2024

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2024 that have a material effect on the Company's recognition, measurement and presentation of items within these financial statements.

(d) Standards, interpretations and amendments to published standards are not yet adopted

Certain new accounting standards and interpretations have been published that are not mandatory for 31 December 2024 reporting periods and have not been early adopted by the Company. Other than in the case of IFRS 18 *Presentation and Disclosure in Financial Statements*, these standards are not expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

IFRS 18 supersedes IAS 1 *Presentation of Financial Statements* and focuses on enhancing how primary financial statements are presented. A key change is a revised format for the income statement, with IFRS 18 mandating:

- · revenues and expenses within the income statement to be categorised into the operating, investing, and financing categories taxes and discontinued operations will continue to be reported separately; and
- sub-totals for operating profit (loss) and earnings before interest and taxes will need to be presented.

# 1.1 Basis of preparation - continued

(d) Standards, interpretations and amendments to published standards are not yet adopted - continued

Beyond the income statement changes, IFRS 18 also mandates increased disclosures regarding management-defined performance indicators, establishes new criteria for aggregating and disaggregating information, and revises the statement of cash flows. The new requirements for the statement of cash flows include eliminating certain classification choices for items like interest paid, interest received, dividends paid, and dividends received, and requiring the operating profit as the starting point for the indirect method presentations.

Subject to endorsement by the EU, IFRS 18 is effective for periods beginning on or after 1 January 2027, with early adoption allowed. Retrospective application is required and so the comparative information for the financial year ending 31 December 2026 will be restated in accordance with IFRS 18. The directors are currently assessing the potential impact of this new standard on the financial statements.

#### (e) Use of judgements and estimates

The preparation of financial statements in conformity with IFRSs as adopted by the EU requires the use of certain accounting estimates. It also requires directors to exercise their judgement in the process of applying the Company's accounting policies (see Note 3 - Critical accounting estimates and judgements).

#### (f) Cost convention and presentation currency

These financial statements are prepared under the historical cost convention. The financial statements are presented in Euro, which is the Company's functional and presentation currency.

# 1.2 Intangible assets

# (a) Sports betting and internally generated software

Intangibles comprise sports betting software that is capitalised on the basis of costs incurred to acquire or internally generate and bring to use the specific software. These costs are amortised over their estimated useful lives of four years. Costs associated with maintaining computer software programmes are recognised as an expense as incurred.

#### (b) Licences

Sports betting licences comprise longer-term licences required for operating in Germany. Sports betting licences are capitalised on the basis of the costs incurred to acquire them. These costs are amortised on a straight-line basis over their respective lifetimes, five years. Gambling licences are recognised on the basis of expected costs to be incurred over the lifetime of the licences (refer to Note 1.9 for further information).

An intangible asset is derecognised on disposal, with any gain or loss arising (calculated as the difference between the net disposal proceeds and the carrying amount of the item) included in the consolidated statement of comprehensive income in the year of disposal.

%

#### 1. Summary of material accounting policies - continued

#### 1.3 Property, plant and equipment

Property, plant and equipment, comprising computer and office equipment, furniture and fixtures and motor vehicles are initially recorded at cost and are subsequently stated at cost less depreciation and impairment losses.

Subsequent costs are included in the asset's carrying amount when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

Depreciation is calculated on the straight-line method to write off the cost of each asset to their residual values over their estimated useful life as follows:

Computer and office equipment	25
Furniture and fixtures	10 - 16¾
Motor vehicles	20

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its expected recoverable amount (Note 1.4).

#### 1.4 Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use

# 1.5 Financial assets

#### Classification

The Company classifies its financial assets at amortised cost. The Company does not hold any financial assets that are classified into any of the other IFRS 9 categories of financial assets.

# Recognition and derecognition

The Company recognises a financial asset in its statement of financial position when it becomes a party to the contractual provisions of the instrument. At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset.

The Company recognises a financial asset in its statement of financial position when it becomes a party to the contractual provisions of the instrument. At initial recognition, the Company measures a financial asset at its fair value.

#### 1.5 Financial assets - continued

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Company commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

#### Impairment

The Company assesses on a forward-looking basis the expected credit losses (ECLs). It measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

At each reporting date, the Company measures the loss allowance on amounts receivable at an amount equal to the lifetime ECL if the credit risk has increased significantly since initial recognition. If, on the reporting date, the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-months ECL.

# 1.5.1 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at face value. For the purposes of the statement of cash flows, cash and cash equivalents comprise cash in hand, deposits held at call with banks and other intermediaries, net of restricted balances and highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

# 1.5.2 Trade and other receivables

Trade receivables are amounts due from customers for services performed in the ordinary course of business.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. When a receivable is uncollectible, it is written off against the allowance account for trade and other receivables. Subsequent recoveries of amounts previously written off are credited against profit or loss.

#### 1.6 Investment in subsidiaries

Investments in subsidiaries are accounted for by the cost method of accounting, i.e. at cost less impairment.

The results of the subsidiary are reflected in the Company's separate financial statements only to the extent of dividends receivable.

On disposal of a subsidiary, the difference between the net disposal proceeds and the carrying amount of the investment is recognised as a gain or loss in profit or loss when control is transferred.

#### 1.7 Leases

The Company leases various offices. Rental contracts are typically made for fixed periods of 3 to 5 years but may have extension options as described below.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of fixed payments (including in-substance fixed payments), less any lease incentives receivable.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received:
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Company, which does not have recent third-party financing; and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability;
- any lease payments made at or before the commencement date less any lease incentives received:
- anv initial direct costs: and
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Extension and termination options are included in a number of property and equipment leases across the Company. These are used to maximise operational flexibility in terms of managing the assets used in the Company's operations. The majority of extension and termination options held are exercisable only by the Company and not by the respective lessor.

#### 1.7 Leases - continued

#### 1.7.1 Finance leases

The Company has recognised a finance lease as a result of a subleasing arrangement currently in place with fellow subsidiaries. In determining the nature of the lease and distinguishing between classification of an operating or finance nature, the Company has considered the net present value of the lease payments made as a result of the sublease arrangement in relation to those of the right of use asset that have arisen as a result of the head lease, rather than by reference to the underlying asset itself.

At the commencement date, the Company has recognised assets held under a finance lease as a lease receivable at an amount equal to the net investment in the lease. This includes fixed payments after deducting any lease incentives payable.

Subsequently, the Company recognises finance income over the lease term, based on a pattern reflecting a constant periodic rate of return on the net investment in the lease.

# 1.8 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

#### 1.9 Financial liabilities

The Company recognises a financial liability in its statement of financial position when it becomes a party to the contractual provisions of the instrument. The Company's financial liabilities are classified in the following categories: at fair value through profit or loss, financial liabilities measured at amortised cost and other financial liabilities under the IFRIC 1 approach. The fair value of open bets is established by using valuation techniques and with reference to recent transactions.

Financial liabilities not at fair value through profit or loss are recognised initially at fair value, being the fair value of consideration received, net of transaction costs that are directly attributable to the acquisition or the issue of the financial liability. These liabilities are subsequently measured at amortised cost. The Company derecognises a financial liability from its statement of financial position when the obligation specified in the contract or arrangement is discharged, is cancelled or expires.

In cases where there are intangible assets, such as gaming licenses, that are valid for over a period of more than one year, and their payments fall due on an annual basis (or any other regular basis), Management has opted to adopt the IFRIC 1 approach. This requires an estimate of the consideration payable over the number of years of the license eligibility and be recognised on initial recognition, both as an intangible asset and as a liability. The intangible asset shall then be amortised over the useful life of the asset whilst the liability is reduced through its periodical repayments. Both asset and liability values shall be revised on an annual basis based on the expected licensable activity generated over the life of the license.

#### 1.9 Financial liabilities - continued

#### 1.9.1 Trade and other payables

Trade payables are obligations to pay for services that have been acquired in the ordinary course of business from suppliers. Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

#### 1.10 Current and deferred taxation

The tax expense for the period comprises current and deferred tax.

The current tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the financial position date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation.

It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or in equity, respectively.

Deferred tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised, or the deferred tax liability is settled.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

#### 1.11 Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the supply of services in the ordinary course of the Company's activities. Revenue from transactions where the Company is taking positions against players, such as sports betting, is recognised when the outcome of the event is known. Revenue from such gaming transactions is deemed to be financial instruments and is recognised a net fair value gain or loss after the deduction of players' winnings, related bonuses and gaming taxes. This revenue is governed by IFRS 9 and is therefore out of scope of IFRS 15.

#### 1.11 Revenue recognition - continued

Gross winnings revenue on sports betting is defined as the net gain or loss from bets placed after the cost of promotional bonuses within the financial period. Where it is not probable that open sports bets at the end of the financial period will be settled, the associated gross winnings revenue is deferred and presented at fair value as deferred income on the balance sheet.

Interest income is recognised in profit or loss for interest bearing instruments as it accrues, on a time-proportion basis using the effective interest method, unless collectability is in doubt.

#### 1.12 Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Company's financial statements in the period in which an obligation to pay a dividend is established.

#### 1.13 Capital reserves

The Capital reserve amounting to €4,800,000 included in the Company's reserves represents a gratuitous contribution which arose due to a restructuring process that took place in previous years whereby the said amount represented the excess of the fair value of assets received.

The above reserve is considered to be a non-distributable reserve and would constitute to be a realised profit as the investment is disposed of.

# 2. Financial risk management

#### 2.1 Financial risk factors

The Company's activities potentially expose it to a variety of financial risks principally comprising market risk (including foreign exchange risk and price risk), credit risk and liquidity risk. The parent company's board of directors provides principles for overall risk management. The Company did not make use of derivative financial instruments to hedge certain risk exposures during the current and preceding financial year.

#### (a) Market risk

#### (i) Foreign exchange risk

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities which are denominated in a currency that is not the entity's functional currency.

The Company is exposed to foreign exchange risk arising from transactions that are denominated in United States Dollar (USD) and Great British Pound (GBP). The Company did not carry material foreign currency balances as at the end of the reporting period. Accordingly, a sensitivity analysis disclosing how profit or loss and equity would have been affected by changes in foreign exchange rates that were reasonably possible at the end of the reporting period is not deemed necessary.

# (ii) Price risk

The Company is exposed to market risk due to the possibility of an unfavourable outcome on events on which the Company has accepted bets. The Company has adopted risk management policies to mitigate this risk. Management monitors the odds real time to determine the appropriate risk levels for certain events and where possible reacts to large risks by, inter-alia, not accepting bets that exceed the maximum risk limit on an individual bet or by closing the event that was offered as a bet. The risk is spread across a large number of events and sports. The Company's exposure to open bets that were provided for in accordance with Note 1.9 was not significant as at 31 December 2024 and 2023 and on this basis, management considers the potential impact on profit or loss of a shift in odds that is reasonably possible at the end of the reporting period to be immaterial.

#### 2. Financial risk management - continued

#### 2.1 Financial risk factors - continued

#### (b) Credit risk

Credit risk is the risk of a financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations and arises principally from trade and other receivables (Note 7) and cash and cash equivalents (Note 8). The maximum exposure to credit risk at the end of the reporting period in respect of the financial assets mentioned above is equivalent to their carrying amount.

For cash and cash equivalents, the Company considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade'. The Company considers this to be Baa3 or higher per Moody's or BBB- or higher per Standard & Poor's or Fitch.

#### Impairment of financial assets

The Company's receivables primarily relate to trade receivables, amounts due from payment providers and amounts due from related parties forming part of the Tipico Group (Note 7). For amounts due from related parties, the Company measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward-looking information in determining any expected credit loss. At 31 December 2024, the directors consider that related party balances are held with counterparties with a high rating based on the Company's internal rating scale. Management considers the probability of default to be low as the counterparties have a strong capacity to meet their contractual obligations, when also considering the support of the Tipico Group. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Company.

The Company applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The expected loss rates are based on the payment profiles of sales over a period of 24 months and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information. On that basis, the loss allowance for trade receivables as at 31 December 2024 and 31 December 2023 was as follows:

Opening loss allowance as at 1 January 2024 – calculated under IFRS 9 Decrease in loss allowance recognised in profit or loss during the year	2024 € 1,886,830 (164,229)	2023 € 2,004,414 (117,584)
Closing loss allowance as at 31 December 2024	1,722,601	1,886,830

While cash and cash equivalents (Note 8) are also subject to the impairment requirements of IFRS 9, the Company banks only with financial institutions or payment intermediaries with high quality standing or rating and the identified impairment loss was immaterial.

Balances due from payment providers can be withdrawn on demand or at short notice. Accordingly, the directors assess the probability of default taking place immediately after the reporting year. The directors have determined that none of the payment providers have experienced a significant increase in credit risk; as there were no indications at the reporting date that any of the counterparties would be unable to honour their obligations in the very short term, the directors have assessed the allowance for expected credit losses on these balances to be wholly insignificant to the Company.

#### 2. Financial risk management - continued

#### 2.1 Financial risk factors - continued

#### (c) Liquidity risk

The Company is exposed to liquidity risk in relation to meeting future obligations associated with its financial liabilities, which comprise trade and other payables (Note 11), other financial liabilities (Note 12), provisions for other risks and charges (Note 13) and current tax liabilities. Prudent liquidity risk management includes maintaining sufficient cash to ensure the availability of an adequate amount of funding to meet the Company's obligations. In determining the ability of the Company to continue to operate as a going concern, the directors consider the support obtained from the immediate parent company allowing the Company to meet its obligations as and when they fall due. This support is valid for a minimum period of twelve months from when these financial statements were available for issuance.

#### 2.2 Capital risk management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may issue new shares or adjust the amount of dividends paid to shareholders.

The Company's equity, as disclosed on the face in the statement of financial position, constitutes its capital. The Company maintains the level of capital by reference to its financial obligations and commitments arising from operational requirements. In view of the nature of the Company's activities and the support of the Group, the capital level as at the end of the reporting period is deemed adequate by the directors.

#### 2.3 Fair values of financial instruments

At 31 December 2024 and 2023, the carrying amounts of cash at bank, receivables, payables, and accrued expenses reflected in the financial statements are reasonable estimates of fair value in view of the nature of these instruments or the relatively short period of time between the origination of the instruments and their expected realisation.

# 3. Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances. The Company makes estimates and assumptions concerning the future. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

#### Provisions

As disclosed in note 13, as at 31 December 2024 the Company recognised a provision of €8.0 million mainly relating to sportsbook player claims arising as a result of a change in the legal environment. Based on advice obtained from legal counsel and after applying management's judgement that other than for claims with a matter value of less than €20k, it is the directors' view that the probability of having a possible outflow of economic resources in relation to Germany player claims arising from sports betting is remote. Additional judgements are expected from German courts and the ECJ in the coming months. Based on information available at the time of signing these financial statements, the directors have determined that, despite acknowledging the uncertain environment in which the Company operates, no additional provision or contingent liability is recognised under IAS 37. The directors will persist in reassessing future developments and the impact these may have on the Company.

Leases

This note provides information for leases where the Company is a lessee.

The balance sheet shows the following amounts relating to leases:

	2024 €	2023 €
Right-of-use assets Buildings	1,300,387	1,089,898
	2024 €	2023 €
Lease liabilities Current Non-current	360,357 1,040,264	1,193,693 61,558
	1,400,621	1,255,251

Additions to the right of use assets during the year amounted to €977,884 (2023: €nil).

The statement of profit or loss shows the following amounts relating to leases:

	2024 €	2023 €
<b>Depreciation charge of right-of-use assets</b> Buildings	767,395	1,135,761
Interest expense (included in finance cost) (Note 18)	230,615	105,190

The total cash outflow for leases amounted to €917,118 (2023: €1,756,834).

#### 6. Investment in subsidiaries

Washington Day of a	2024 €	2023 €

			153,503,1	22	96,734,011

The amounts due from fellow subsidiaries are unsecured, interest-free and repayable on demand. The loan amounts due from the immediate parent company are subject to a variable interest rate with an average of 7.26% p.a. (2023: 6.45% p.a.), with interest being due annually (Note 17) and the principal being repayable on demand.

# 8. Cash and cash equivalents

7.

For the purposes of the statement of cash flows, cash and cash equivalents comprise the following:

	2024 €	2023 €
Cash at bank and other intermediaries Less: restricted cash	222,433,241 (33,399,367)	163,005,731 (31,984,058)
Cash and cash equivalents	189,033,874	131,021,673

# 8. Cash and cash equivalents - continued

Included in cash at bank are amounts of €33,399,367 (2023: €31,984,058) that are held in a fiduciary capacity and represent customer monies and agency deposits, whose use is restricted in terms of the gaming regulations and/or intermediary contracts.

# 9. Share capital

2024	2023
€	€
100,000	100,000
	€

# 10. Deferred tax asset/liability

Deferred tax is calculated on all temporary differences under the liability method using the tax rate that is expected to apply to the period when the assets/liabilities are settled, based on the tax rates expected in the tax jurisdictions concerned. The principal tax rate used is 35% (2023: 35%), which is the rate of tax for the Company's profits earned in Malta. The movement in deferred tax balances is analysed as follows:

31 December 2023		Recognised in profit or loss €	Balance at 31 December €
Deferred tax Temporary differences on amortisation of intangible assets Temporary differences on provisions Other	(4,947,966) 2,607,873 677,204	(489,810) (1,244,661) (564,826)	(5,437,776) 1,363,212 112,378
Net deferred tax liability	(1,662,889)	(2,299,297)	(3,962,186)
31 December 2024  Deferred tax Temporary differences on amortisation of intangible assets Temporary differences on provisions Other	(5,437,776) 1,363,212 112,378	5,813,828 2,672,520 (193,221)	376,052 4,035,732 (80,843)
Net deferred tax asset	(3,962,186)	8,293,127	4,330,941

#### 11. Trade and other payables

#### **Current liabilities**

	2024 €	2023 €
Trade payables Players' accounts Amounts due to immediate parent company Amounts due to fellow subsidiaries Gaming and indirect taxes Accruals and deferred income	3,198,810 30,881,560 8,141,415 59,258,621 18,433,020 5,804,330	3,047,288 29,608,216 82,295,514 14,527,897 19,354,548 7,689,006
	125,717,756	156,522,469

Amounts due to the immediate parent company and fellow subsidiaries are unsecured, interest free and repayable on demand. Support has been obtained from the immediate parent company allowing the Company to meet its obligations as and when they fall due. This support is valid for a minimum period of twelve months from when these financial statements were available for issuance.

#### 12. Other financial liabilities

Other financial liabilities refer to liabilities arising in respect of annual payments for gaming licenses in Germany. Management has opted to adopt the IFRIC 1 accounting treatment as disclosed in note 1.9.

	2024 €	2023 €
Other financial liabilities		
Current	3,025,590	2,942,452
Non-current	6,630,465	9,656,055
	9,656,055	12,598,507

# 13. Provisions for other risks and charges

	2024 €	2023 €
Legal provision – carrying amount	8,000,000	

The provision recognised mainly relates to sportsbook player claims arising as a result of a change in the legal environment.

The entity has a number of claims currently subject to ongoing legal review. In accordance with applicable legal procedures, certain rulings may become final and enforceable depending on the value of the claims. As a result, the entity has recognised a provision in relation to these matters.

As disclosed in note 3, the basis for the provision is subjective and inherently uncertain and is dependent on management's best assessment.

# 14. Other income and expense items

# 14.1 Other gains/(losses)

	2024	2023
	€	€
Net gain on sale of business including software	314,000,900	-

Provisions for other risks and charges (Note 13)	7,800,000	31,023,303
Other expenses	9,740,614	9,113,367
Total administrative expenses	69,087,796	91,052,632

Fees charged by the auditor, exclusive of VAT, for services rendered during the financial years ended 31 December 2024 and 2023 relate to the following:

	2024	2023
	€	€
Annual statutory audit	97,650	93,000

# 15. Other operating income

Other operating income relates to income which is ancillary to the Company's main activity.

# 16. Employee benefit expense

	2024 €	2023 €
Wages and salaries Social security costs Less: employee cost capitalised as part of intangible assets	9,463,746 405,793 (2,085,372)	15,076,582 630,255 (3,070,595)
	7,784,167	12,636,242

During the year under review, the Company employed, on average, 146 employees (2023: on average, 236 employees). As part of the transfer of the brand and software to related parties, employees were reallocated to the respective entities, leading to a decrease in employees in 2024.

# 17. Finance income

	2024 €	2023 €
Bank interest Other interest	55,721 4,687,275	55,678 4,501,032
	4,742,996	4,556,710

Amounts included within other interest receivable, amounting to €3,536,689 (2023: €4,482,155), relate to a loan carried out with the immediate parent company (Note 7), the majority of which was not received as at year end.

# 18. Finance costs

	€
741,225 230,615	1,070,187 105,190
971,840	1,175,377
	230,615

#### 19. Tax expense

	2024 €	2023 €
Current tax charge Deferred tax charge (Note 10)	136,761,320 (8,293,127)	104,924,776 2,299,297
Tax expense	128,468,193	107,224,073

# 19. Tax expense - continued

The tax on the Company's profit before tax differs from the theoretical amount that would arise using the basic tax rate as follows:

the pasic tax rate as follows.	2023 €	2023 €
Profit before tax	1,215,544,520	305,302,306
Tax on profit at 35%	425,440,582	106,855,807
Tax effect of: Disallowed expenses Interest income subject to tax at 15% Effect of loss on investment Effect of gain on disposal of subsidiary Effect of gain on sale of brand Effect of gain on sale of customer base Effect of gain on sale of software Effect of prior year deferred tax Permanent differences	10,441 (11,144) 8,750 (72,791,250) (108,045,000) (25,585,000) (80,430,000) 211,112 (10,340,298)	(11,136) - - - - - - 379,402
Tax charge	128,468,193	107,224,073

No tax charge arose on the gain from the disposal of the subsidiary as this related to a transfer of shares in a Maltese company, which is exempt from tax in accordance with the provisions of the Income Tax Act. Additionally, no taxation arose on the gains from the transfers of the brand, customer base, and software, as these were intragroup transactions qualifying for tax deferral under the applicable provisions of the Income Tax Act.

# 20. Dividends

	2024 €	2023 €
Gross dividend on ordinary shares Tax at source	1,223,829,288 (136,752,961)	302,994,657 (104,916,424)
Net dividend on ordinary shares	1,087,076,327	198,078,233
Net dividend per share	10,870.76	1,980.78

#### 21. Cash generated from operations

Reconciliation of operating profit to cash generated from operations:

	2024 €	2023 €
Operating profit	1,211,773,364	301,920,973
Adjustments for: Amortisation of intangible assets (Note 4) Depreciation of plant and equipment (Note 5) Net (gain)/loss on disposal of subsidiary and intangible assets (Note 14) Movement in provisions (Notes 7 and 13) Restricted cash (Note 8)	18,220,266 802,038 (903,750,900) 7,835,711 (1,415,309)	31,034,628 1,243,010 - (117,584) 5,703,685
Changes in working capital: Trade and other receivables Trade and other payables & other financial liabilities	(53,089,647) 34,740,679	(262,177) (89,101,267)
Cash generated from operations	315,116,202	250,421,268

Non-cash financing activities during the year related to €1,002,076,327 (2023: €54,000,000) of dividends that were not paid during the year (Note 20). In addition, the disposal of software was completed via intercompany arrangements and classified as a non-cash transaction. (Note 4).

# 22. Related party transactions

All companies forming part of the Tipico Group together with its shareholders are considered by the directors to be related parties.

The Company entered into transactions with related parties that include shareholders, directors and their connected parties, and entities that are related by way of common shareholders or directors.

The following transactions were carried out by the Company with related parties:

	2024 €	2023 €
Sale of goods and services Commission payable to group undertakings (disclosed within net	(79,354,928)	(66,691,118)
revenue)		
Support services provided to other related parties	17,886,137	763,812
Purchase of goods and services		
Purchase of tangible and intangible assets from fellow subsidiaries	(16,539,654)	(28,665,263)
Rental of premises from related parties	(804,555)	(1,371,835)
Support services provided by other group undertakings	(309,625,984)	(255,544,532)

Dividends due to the parent company are disclosed in Note 20. The net gains on the sale of software, the sale of the brand, the sale of the customer base and the sale of the subsidiary to related parties are disclosed in Note 14.1, as these transactions are related party transactions.

#### 22. Related party transactions - continued

Year-end balances owed by or to the parent company, fellow subsidiaries and other group undertakings arising principally from the above transactions and cash advances, are disclosed in Notes 7 and 11 to these financial statements.

During the year ending 31 December 2024, the Company entered into a 'brand and domain' licence agreement with its immediate parent company. The agreement gives the Company the right to use the brand and domain rights (IP rights) held by the immediate parent company. The consideration for the grant of the licence is a revenue-based licence fee calculated on a monthly basis with consideration given to a yearly minimum fee.

During the same year, the Company also entered into a 'sportsbook solution' service agreement with a related party. The provider holds all the rights and title in the sports betting software solution. Under this agreement the Company is entitled the right to install and use this software in its own name for any commercial purpose within the course of its ordinary business operations. As consideration for the provision of this service, the Company pays a revenue-based service fee calculated on a monthly basis.

#### 23. Contingencies

The Company is facing litigation brought forward by a former franchise partner for an alleged wrongful contract termination and damages of up to €11,500,000 allegedly suffered as a result of such termination. The Company believes the claim to be without merit and continues to litigate the matter vigorously.

#### 24. Statutory information

Tipico Co. Ltd is a limited liability company and is incorporated in Malta. The immediate parent company of Tipico Co. Ltd is Tipico Group Limited, a company registered in Malta, with its registered address at Tipico Tower, Vjal Portomaso, St. Julians, STJ 4011.
