Suggestions for regulatory and policy changes to enable the development of DLT-based capital markets

Stand vom 09.04.2025 10:05:50 bis 27.06.2025 15:02:14

Angegeben von:

Association for Financial Markets in Europe (AFME) (R001235) am 30.09.2024

Beschreibung:

Key to ongoing scaling DLT-based capital markets are policy and regulatory frameworks that enable – in a sound and secure way – the inclusion of innovative DLT-based business models in financial markets. European policymakers have begun to build such a framework by enabling experimentation, including through the DLT Pilot Regime and ECB wholesale CBDC trials and experiments. As DLT in capital markets are now moving into a new phase, Europe has a great opportunity to further develop a more permanent policy framework that helps Europe lead the development of DLT-based capital markets and shape DLT-based market practices and regulatory standards globally. This report focuses on the policy and regulatory changes that are necessary to enable development and growth of DLT-based capital markets.
