Beschreibung:

The European Commission consultation on the EU securitisation framework states that “While the 2019 framework and its subsequent amendments improved transparency and standardisation in the securitisation market, stakeholder feedback gathered in preparation of the Commission report on the functioning of the Securitisation Regulation, and subsequent stakeholder engagement, indicates that issuance and investment barriers remain high, impeding the EU economy from fully reaping the benefits that securitisation can offer.” The Commission is expected to publish a legislative proposal on 17 June 2025 in order to relaunch the securitisation market.
