Suggestions for helping German businesses connect with investors through securitisation

Aktuell seit 29.04.2026 17:30:15

Angegeben von:

Association for Financial Markets in Europe (AFME) (R001235) am 27.06.2025

Beschreibung:

German businesses which sell their goods and services on credit have for a long time used their trade receivables as a way of financing their working capital. They do this by connecting with investors who are interested in investing in the receivables. Financial institutions which provide consumer or corporate loans or leases in Germany have similarly used these assets as a way of financing loans to new customers. They do this by connecting with investors who are interested in investing in corporate or consumer exposures. The technique which is used to make the connection is securitisation.
