

EMERGENT®

Deutscher Bundestag
Platz der Republik 1
11011 Berlin

22 May 2024

Dear [REDACTED]

Emergent is a global biosciences company dedicated to protecting and enhancing life by providing specialized medical products that address accidental, intentional, and naturally occurring threats to public health. We develop, manufacture, and deliver medical countermeasures against public health threats through a pipeline of innovative vaccines and therapeutics worldwide. To safeguard against chemical and biological threats, and emerging infectious diseases, Emergent has collaborated with the US and international governments for 25 years to support their preparedness strategies.

As part of our commitment to protect against CBRN and other public health threats, Emergent partners with governments to ensure the adequate protection of first responders and military personnel, as well as the stockpiling for civil protection of the general population. Emergent is keen to learn more about how the protection against CBRN and other health threats factors into the planning of the federal government as well as taking shape in the general legislative developments and procurement activities in Germany.

In view of your function as Member of Parliament responsible for these issues, we would like to arrange an exchange with you centering on countering current and future health threats, particularly against the background of the Medical Research Act as well as the upcoming Crisis Preparedness Law. We believe that investments must be made in research and infrastructure in order to successfully mitigate the effects of future health crises. With this in mind, sufficient planning and reliable partnerships are essential.

We would like to learn more about your perspective on this topic and support you with our expertise in shaping German measures for civil protection and disaster control. In this context we would be delighted to arrange a conversation with [REDACTED], we would like to suggest these two days as possible meeting dates. We would gladly reach out to your office to discuss the details and arrange a suitable meeting time.

Yours sincerely,

[REDACTED]
