Maschinensicherheit und E-Commerce

Stand vom 15.09.2025 17:06:45 bis 10.11.2025 12:46:49

Angegeben von:

TRUMPF SE + Co. KG (Holding) (R000697) am 15.09.2025

Beschreibung:

For some years now, the mechanical engineering industry in Europe has been registering a steadily increasing number of unsafe machines entering the European market. These pose an enormous safety risk to users, ranging from eye damage or crushing injuries to fatalities. In addition, unsafe machines threaten the existence of the companies that operate them, as they are liable in the event of damage. Unsafe machines from non-European countries are often accompanied by subsidized price dumping, which creates an enormous distortion of competition. Finally, the additional financial outlay for CE conformity of quality machines is around 10-20%.

Zu Regelungsentwurf

1. Bundestags-Drucksachennummer:

BT-Drs. 20/14736 (Vorgang) [alle RV hierzu]

Aktionsplan der Bundesregierung zu E-Commerce

Zuständiges Ministerium: BMWK (20. WP) [alle RV hierzu]
